WITCH WITH ME

Welcome to Coven-Minis

Group magick is a special part of any practice. At Witch With Me, we know many of you are new to the world of witchcraft and often do not have large magickal circles to coven with. That's why we have designed Coven-Minis!

Coven-minis are rituals and spells that may be performed with groups of 2-6 people. Since we live in the age of Covid, these spells and rituals are designed to be performed in the home of the solitary practitioner, but connected to their coven either via internet or synchronized timing.

The goal is to learn the power of collaborative magick and grow together as magickal practitioners.

We cordially invite you to grab a witchy colleague or two and form your own Coven-Mini!

New Moon | New Year | New Foundations

This new moon falls at midnight on January 13, 2021 EST USA in the cardinal sign of Capricorn. This ritual may be performed anytime on the 12-14.

The Seagoat is a leader, a steadfast worker, an agent of time keeping, and beginnings born out of the darkest hour. Let us use this energy now, together, to officially connect your coven together by blessing each member their own coven candle to use in your magickal group workings.

This candle stands as a connecting entity. When lit, it calls the powers of the coven together like beacons signaling each other from misty mountain tops.

Coven Candle Blessing

STEP ONE: Each coven member should gather the following materials.

- One white pillar candle (3" x 6" recommended)
- One small plate or bowl filled with salt
- One small carving tool (ex. athame or screw driver)
- One tablespoon dried rosemary or three sprigs of fresh rosemary (for fidelity and witch power)
- One small crystal, stone, or token that represents your own unique identity and/or gifts within the coven.

STEP THREE: Prepare your pillar candle. Using your carving tool, carve three symbols into the candle.

STEP FOUR: Setup your altar.

- 1) Stand your freshly carved candle in the middle of your bowl/plate of salt.
- 2) Place the bowl/plate in the center of your altar.
- 3) Sprinkle or arrange the rosemary around the base of the candle, on top of the salt.
- 4) Place your chosen crystal/token in the bowl next to the candle.

STEP FIVE: Decide how you wish to perform the ritual together. Here are some options:

- 1) Coordinate a live streaming of the ritual with all coven members via zoom.
- 2) Choose an agreed upon time to perform the ritual. All perform the ritual at the same time alone at their altars, connecting with their coven intuitively.
- 3) Film yourself doing the ritual alone and share the ritual with your coven afterwards.

STEP SIX: Open the ritual by calling your coven power together.

Light your coven candle to call each other's energies together with spirit. As you light the candle, all say,

**"Coven power, spiral to me.
I call on my brethren,
so mote it be."**

STEP SEVEN: Bless the Coven Candles

Hold your hands, palms down, a safe distance above the lit coven candle. You should be able to feel the warmth but be careful not to hurt yourself. This blessing may be done in unison or each member may perform this part one at a time. Incant:

**This Coven convenes under the new Moon
We stand in our truth to ask of this boon.**

**By power of earth, wind, air, and water
Dear Moon bless this coven
Unite us together.**

**We draw down beginnings.
We pour strong foundations,
Light our endeavors,
Inspire our creations.**

**Protect us, keep us and bless this flame
To serve the Coven of those we now name...**

**Dorothy
Scarecrow
Tin Man
Lion**

STEP EIGHT: Seal the ritual with this incantation

**"And so it is and so it shall be,
We command our Coven Candle
Shall serve both you and me."**

STEP NINE: Ending the ritual.

If the Coven is live together, you may want to use this time to enjoy the energy of the lit candles and each other's company. Perhaps you even conduct more coven business.

Alternatively, you may prefer to simply end this powerful ritual and go rest and reflect. Do what feels right for your energy levels.

When ready, end the ritual by safely snuffing out your Coven Candle. Use this candle for all future coven workings, creating a new one or refreshing as needed.
