## FIRE SIGNS

Aries

Signs of abundance are rolling in from all directions as the month begins. New resources will present themselves. Explore them with the caveat that you don't know everything yet. Research new possibilities thoroughly to maximize output. Consider it may be a change in philosophy that brings you to the finish line.

---

Leo

A new you is ready to be revealed to the public. This could be anything from a cool haircut to a bid for the next rung in the corporate ladder. Showing up evolved and ready to win pays dividends this month. The end of the month may require your attention to swing to helping your children or encouraging your inner-child, so be ready for that pivot as well.

---

Sagittarius

Have you been nourishing your mind, body, and soul? Probably not enough as you have been extremely busy. Know it is possible and needed to take a staycation. This full moon eclipse is going to bring some major changes to your sense of self and having a clear, rested mind will benefit you in this transition.

## EARTH SIGNS

Taurus

Your hard work and patience have paid off and now it is time to celebrate! No one knows how to spoil themselves better than you so live it up and show us all the meaning of taking life by the horns. Fully understand how loved and admired you are. Take this inner alchemy and transform your personal narrative for the year to come.

---

Virgo

You probably have your regimen down to a science but have you considered it could be even better? Step out of your comfort zone and explore new ways of doing things. You will pleasantly surprise yourself. Plus, month-end energy supports routine creation and foundation building so your Virgo heart will be doubly pleased with the abundant and efficient results.

---

Capricorn

The power of optimism is here to propel you forward. This might be a bit out of your comfort zone but the energy favors trust in things working out for you right now. You should balance this outward bound by spending some time in your own headspace as well. There are things we all need to work through and this work will set you free if undertaken with truth, grace, and compassion.

## AIR SIGNS

Gemini

This is the new moon of big releases for you and it is time to throw that shit out. Just remember, to fully release you have to feel with your heart, not just decide in your head. To accomplish this necessary task you may need to draw within. Fear not, by the full moon you will have a plan for the future that includes engaging the community and finding like-minded colleagues.

---

Libra

Taurus season is here to ground you, to nourish you, and to inspire you. Recharge with bare feet on earth and fingers in soil. Embody Spring rebirth in all that you endeavor and do so with all your heart. At the full moon you should write about and share this recuperation with others. You may be surprised how much communicating your own healing can and will help others.

---

Aquarius

Take inventory of your personal security. Are you where you want to be physically, emotionally, and financially? Use the resources you have to improve on areas you feel shaky. By the full moon the bigger picture you love to champion will be illuminated and you can proceed with plans from a much stronger foundation.

## WATER SIGNS

Cancer

Your vision is ripe for manifestation and the best way to launch it is to share it with your colleagues. Careful Cancer may be hesitant to be so naked with their dreams, but the energy is calling for you to lead like-minded people. With all this focus on making things physical, don't forget to care for your own body. Be sure to take care of any nagging health concerns to avoid a greater flare up.

---

Scorpio

Challenge yourself to engage a totally new perspective than you would normally explore. There is something you are missing and the universe wants you to make a connection with people and groups beyond what you are accustomed to. The result of this break from your comfort zone should pay dividends in financial or relationship opportunities.

---

Pisces

Trying taking all these big emotions you are having about change and write them down. Give structure to the formless swirls of powerful feeling you embody. You are so deep and so layered, your thoughts are worth showing to the world. You just need to clarify them first. Feel, write, share. Authentic communication will finally get you noticed and heard by those you have been trying to reach.
